

# FLEXIBLE PACKAGING – HIGHEST QUALITY

For demanding customers who need tailor-made consumer packaging, NORDENIA DEUTSCHLAND Halle is an established partner. Well-known international and national companies use the high-quality films, which

are distinguished by innovative performance features. With its highly qualified employees and high-performance manufacturing facilities, NORDENIA DEUTSCHLAND Halle stands for excellent know-how and highest quality.

# NORDENIA DEUTSCHLAND Halle GmbH

- For more than four decades, the site in Halle has been
- ▼ providing quality and customer-oriented solutions.

## CORE COMPETENCIES

- Flexible packaging solutions of very high manufacturing quality
- Printing in premium quality with up to ten colors
- Implementation of innovative barrier technologies
- Individual services and on-site consulting

## QUALITY AND PROGRESS AS TRADITION

Since 1967, NORDENIA DEUTSCHLAND Halle has stood for high-quality products and the implementation of customer-oriented solutions. Flexible packaging and technical films which are used in the area of food, cosmetics and healthcare products, pet food, detergent, hygiene products, and in the steel industry, are all part of the company's comprehensive product portfolio. The products manufactured in Halle are the result of joint

developments. The standard for all products is always impeccable quality, innovation, optimum safety, and perfect protection. The company is certified in accordance with the norms DIN EN 15593 (Hygiene), DIN EN ISO 9001 (Quality), and DIN EN ISO 14001 (Environment). The Group-wide "World Class Production" optimization program guarantees the continuous improvement of production processes and products.

▲ Aroma protection is one of many impressive special features of NORDENIA packaging.

- ▲ At its site in Halle, NORDENIA produces high-quality films using state-of-the-art machinery.

## INDIVIDUAL CONCEPTS WITH ON-SITE SERVICE

Market-oriented concepts and innovative processes are the trademark of NORDENIA DEUTSCHLAND Halle. Cooperation with the customer starts already at the packaging creation: The respective requirements in regard to material, layout, shape, and runnability are thus implemented in

optimum packaging solutions. During the conversion of the individually developed films on the customer's machines, NORDENIA offers qualified on-site consultation and thus guarantees smooth processes. The intensive cooperation also ensures a short time to market.

◀ The highest print quality sets the composite films for baby wipes apart.

Special customer requirements are being ▶ implemented flawlessly, for example, for high quality food packaging.

## BRILLIANT PRINTING, HIGH-QUALITY PACKAGING

NORDENIA DEUTSCHLAND Halle specializes in the production of high-quality packaging solutions. Its portfolio focuses on mono and laminate films, as well as pre-made bags. The products are used as consumer goods packaging, medical films, and industrial

applications packaging. The modern manufacturing facilities can produce both solvent-based and solvent-free lamination. The film laminates fulfill a number of special requirements, such as special aroma protection or high-performance barriers against oxygen and

water vapor. With a newly developed procedure, NORDENIA DEUTSCHLAND Halle is able to achieve exceptionally high quality in flexographic printing: The high-definition NorPrint stands out thanks to extreme sharpness of detail and maximum color brilliance.

## SEAL FOR SUSTAINABLE PRODUCTS

Sustainability is one of the central aspects in the production of all NORDENIA products. Films and packaging which have been manufactured with the most efficient use of energy possible and in a way which effectively saves resources

are labeled with the NOR®Green quality seal. Only products which meet the demanding requirements of a complex criteria catalog and simultaneously offer the quality standards expected by our customers are given this seal.

## RESEARCH AND DEVELOPMENT

Innovativeness is deeply rooted within NORDENIA's company culture. As a pioneer who invests in innovations, NORDENIA develops market-oriented, and value-adding products and processes. The strategic product and process development as well as product optimization are

concentrated in NORDENIA TECHNOLOGIES GmbH, the Group's development company. In cooperation with its customers and suppliers, NORDENIA works for the future of film packaging all over the world. A high utility value and innovative functions are the top priority.

◀ One of the strengths of NORDENIA is the constant enhancement of successful products.

# NORDENIA WELTWEIT

As a leader in innovation and technology, the NORDENIA Group has an outstanding market position with its manufacturing and conversion of flexible packaging, technical films, and product components.

The business is structured into the Consumer Flexible Packaging Division and the Advanced Films & Components Division. Our products are used in a wide variety of areas, in particular the hygiene, food, and pet food sectors. Among our customers are the globally active consumer goods manufacturers.

The packaging film company employs around 3,000 people. Our shared values serve as the foundation for our activities. With its seven shared values of flexibility, global, independence, innovation, partnership, passion for excellence and quality, NORDENIA has a partnership-oriented company culture. The management of NORDENIA INTERNATIONAL AG is headquartered in Greven in the German state of North Rhine-Westphalia. NORDENIA TECHNOLOGIES GmbH handles the NORDENIA Group's strategic process and product development at its Gronau site.
